**DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON CHANGES
IN RATES OF GENERAL APPLICABILITY FOR COMPETITIVE PRODUCTS (GOVERNORS'
DECISION NO. 20-5)**

November 12, 2020

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices of general applicability for the Postal Service's shipping services (competitive products), and such changes in classifications as are necessary to define the new prices. The changes are described generally below, with a detailed description of the changes in the attachment. The attachment includes the draft Mail Classification Schedule sections with classification changes in legislative format, and new prices displayed in the price charts.

As shown in the nonpublic annex being filed under seal herewith, the changes we establish should enable each competitive product to cover its attributable costs (39 U.S.C. § 3633(a)(2)) and should result in competitive products as a whole complying with 39 U.S.C. § 3633(a)(3), which, as implemented by 39 C.F.R. § 3035.107(c), requires competitive products collectively to contribute a minimum of 9.1 percent to the Postal Service's institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. § 3633(a)(1)). We therefore find that the new prices are in accordance with 39 U.S.C. §§ 3632-3633 and 39 C.F.R. § 3035.102.

I. Domestic Products

A. Priority Mail Express

Overall, the Priority Mail Express price change represents a 1.2 percent increase. The existing structure of zoned Retail, Commercial Base, and Commercial Plus price categories is maintained, with Commercial Base and Commercial Plus prices continuing to be set equal to each other. Dimensional weighting, which was introduced for all zones in 2019, will continue in 2021. New for 2021, a \$100 fee will be assessed on parcels found in the mailstream that exceed the maximum mailable size limit (combined length and girth greater than 130 inches).

Retail prices will increase an average of 1.0 percent. The price for the Retail Flat Rate Envelope, a significant portion of all Priority Mail Express volume, will remain priced at \$26.35, with the Legal Size and Padded Flat Rate Envelopes priced at \$26.50 and \$26.95, respectively.

The Commercial Base price category offers lower prices to customers who use online and other authorized postage payment methods. The Commercial Base prices will increase 2.5 percent on average. Commercial Base prices will, on average, reflect a 14.1 percent discount off of Retail prices.

The Commercial Plus price category has traditionally offered even lower prices to large-volume customers. Commercial Plus prices were matched to the Commercial Base prices in 2016 and will continue to be in 2021. For January, Commercial Plus prices as a whole will receive a 2.5 percent increase on average.

B. Priority Mail

On average, the Priority Mail prices will be increased by 3.5 percent. The existing structure of Priority Mail Retail, Commercial Base, and Commercial Plus price categories is maintained. Dimensional weighting, which was extended to all zones in 2019, will continue in 2021. New for 2021, a \$100 fee will be assessed on parcels found in the mailstream that exceed the maximum mailable size limit (combined length and girth greater than 130 inches).

Retail prices will increase an average of 3.0 percent. Retail Flat Rate Box prices will be: Small, \$8.45; Medium, \$15.50; Large, \$21.90 and Large APO/FPO/DPO, \$20.40. Thus,

the Large APO/FPO/DPO Flat Rate Box will be \$1.50 less than the Large Flat Rate Box. The regular Flat Rate Envelope will be priced at \$7.95, with the Legal Size and Padded Flat Rate Envelopes priced at \$8.25 and \$8.55, respectively.

The Commercial Base price category offers lower prices to customers using authorized postage payment methods. The Commercial Base prices will increase 3.6 percent on average. Commercial Base prices will, on average, reflect a 14.4 percent discount off of Retail prices.

The Commercial Plus price category has traditionally offered even lower prices to large-volume customers. For January, Commercial Plus prices as a whole will receive a 4.5 percent increase and will average 14.1 percent off Retail prices.

C. Parcel Select

On average, prices for destination-entered non-Lightweight Parcel Select, the Postal Service's bulk ground shipping product, will increase 8.9 percent. For destination delivery unit (DDU) entered parcels, the average price increase is 4.9 percent. For destination sectional center facility (DSCF) destination entered parcels, the average price increase is 10.7 percent. For destination network distribution center (DNDC) parcels, the average price increase is 9.7 percent. Prices for Parcel Select Lightweight will increase by 20.0 percent. Parcel Select Ground will see a 1.3 percent price increase. Dimensional weighting, which was introduced for all zones in 2019, will continue in 2021. New for 2021, a \$100 fee will be assessed on parcels found in the mailstream that exceed the maximum mailable size limit (combined length and girth greater than 130 inches).

D. Parcel Return Service

Parcel Return Service prices will have an overall price increase of 4.9 percent. Prices for parcels retrieved at a return sectional center facility (RSCF) will increase by 4.9 percent, and prices for parcels picked up at a return delivery unit (RDU) will increase 4.9 percent. New for 2021, a \$100 fee will be assessed on parcels found in the mailstream that exceed the maximum mailable size limit (combined length and girth greater than 130 inches).

E. First-Class Package Service

First-Class Package Service (FCPS) continues to be positioned as a lightweight (less than one pound) offering primarily used by businesses for fulfillment purposes. In 2017, First-Class Mail Parcels were transferred to the competitive product list and renamed First-Class Package Service – Retail (FCPS-Retail), and in 2019, the FCPS-Retail and FCPS-Commercial price categories were given zone-based pricing. Overall, FCPS prices will increase 6.2 percent, with a 4.8 percent increase for FCPS-Retail and a 6.5 percent increase for FCPS-Commercial. New for 2021, a \$100 fee will be assessed on parcels found in the mailstream that exceed the maximum mailable size limit (combined length and girth greater than 130 inches).

F. USPS Retail Ground

USPS Retail Ground prices will increase 3.0 percent. Customers shipping in Zones 1-4 will continue to receive Priority Mail service and will only default to Retail Ground if the item contains hazardous material or is otherwise not permitted to travel by air transportation. New for 2021, a \$100 fee will be assessed on parcels found in the mailstream that exceed the maximum mailable size limit (combined length and girth greater than 130 inches).

G. Domestic Extra Services

Premium Forwarding Service (PFS) prices will increase between 3.9 and 4.0 percent in 2021, depending on the specific rate element. The retail counter enrollment fee will increase to \$22.75. The online enrollment option, introduced in 2014, will now be available for \$20.90. The weekly reshipment fee will increase to \$22.75. PFS Local, which was introduced in 2019 for P.O. Box customers, will have an increase in the reshipment fee to \$22.75. Prices for Adult Signature service will increase to \$6.90 for the basic service and \$7.15 for the person-specific service. Address Enhancement Service price increases will vary depending on the particular rate element, to ensure adequate cost coverage. Competitive Post Office Box prices will be increasing 23.3 percent on average, and some adjustments will be made to the price ranges. Package Intercept Service will increase 4.1 percent, to \$15.25. The Pickup On Demand fee will increase to \$25.00 for 2021. Premium Data Retention and Retrieval Service, which was introduced in 2020, will have no price change for 2021.

ORDER

The changes in prices and classes set forth herein shall be effective at 12:01 A.M. on January 24, 2021. We direct the Secretary to have this decision published in the *Federal Register* in accordance with 39 U.S.C. § 3632(b)(2), and direct management to file with the Postal Regulatory Commission appropriate notice of these changes.

Retail Dimensional Weight

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

Commercial Base Dimensional Weight

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

b. Dimensional Weight

Parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the

associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

c. Oversized Pieces

Regardless of weight, any piece that measures more than 108 inches (but not more than 130 inches) in length plus girth must pay the oversized price. As stated in the Domestic Mail Manual, any piece that is found to be over the 70 pound maximum weight limitation is nonmailable, will not be delivered, and may be subject to the \$100.00 overweight item charge.

d. Forwarding and Returns

Parcel Select pieces that are forwarded on request of the addressee or forwarded or returned on request of the mailer will be subject to the applicable Parcel Select Ground price, plus \$3.00, when forwarded or returned. For customers using Address Correction Service with Shipper Paid Forwarding/Return, and also using an IMpb, the additional fee will be \$2.50.

b. Dimensional Weight

Parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the

associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

c. Oversized Pieces

Regardless of weight, any piece that measures more than 108 inches (but not more than 130 inches) in length plus girth must pay the oversized price. As stated in the Domestic Mail Manual, any piece that is found to be over the 70 pound maximum weight limitation is nonmailable, will not be delivered, and may be subject to the \$100.00 overweight item charge.

d. Forwarding and Returns

Parcel Select pieces that are forwarded on request of the addressee or forwarded or returned on request of the mailer will be subject to the applicable Parcel Select Ground price, plus \$3.00, when forwarded or returned. For customers using Address Correction Service with Shipper Paid Forwarding/Return, and also using an IMpb, the additional fee will be \$2.50.

Balloon Price

Limited Overland Routes pieces exceeding 84 inches in length and girth combined (but not more than 108 inches) and weighing less than 20 pounds are subject to a price equal to that for a 20-pound parcel for the zone to which the parcel is addressed.

Oversized Pieces

Regardless of weight, any piece that measures more than 108 inches (but not more than 130 inches) in length plus girth must pay the oversized price. As stated in the Domestic Mail Manual, any piece that is found to be over the 70 pound maximum weight limitation is nonmailable, will not be delivered, and may be subject to the \$100.00 overweight item charge.

Pickup On Demand Service

Add ~~\$24.00~~25.00 for each Pickup On Demand stop.

Dimensional Weight

In Zones 1-8, parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

These dimensional weight rules do not apply to the Limited Overland Routes price category.

IMpb Noncompliance Fee

Add ~~\$0.20~~0.25 for each IMpb-noncompliant parcel paying commercial prices.

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3011.201, the Postal Service hereby applies for non-public treatment of the attributable cost, contribution, and cost coverage data in the unredacted version of the annex to Governors' Decision No. 20-5, as well as the supporting materials for those data, which include disaggregated product volume, weight, and revenue distribution information by price cell. The materials consist of spreadsheets that contain calculations to determine the weighted average price increase and cost coverage for each competitive product within the scope of this docket. The Postal Service hereby furnishes below the justification for this application as required by each subsection of 39 C.F.R. § 3011.201(b). For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials. The Postal Service is concurrently filing redacted versions of these files, where it has determined redactions to be practicable.

(1) The rationale for claiming that the materials are non-public, including the specific statutory provision(s) supporting the claim, and an explanation justifying application of the provision(s) to the materials.

The materials designated as non-public consist of information of a commercial nature as well as third-party business information that, under good business practice, would not be disclosed to the public. In the Postal Service's opinion, this information would be exempt from mandatory disclosure pursuant to 39 U.S.C. § 410(c)(2) and 5 U.S.C. § 552(b)(3) and (b)(4).¹ Because the portions of the materials filed non-publicly

¹ In appropriate circumstances, the Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A). The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury,

in this docket by the Postal Service fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant the Postal Service's application for their non-public treatment.

- (2) A statement of whether the submitter, any person other than the submitter, or both have a proprietary interest in the information contained within the non-public materials, and the identification(s) specified in paragraphs (b)(2)(i) through (iii) of this section (whichever is applicable). For purposes of this paragraph, identification means the name, phone number, and email address of an individual.²**

None.

- (3) A description of the information contained within the materials claimed to be non-public in a manner that, without revealing the information at issue, would allow the Commission to thoroughly evaluate the basis for the claim that the information contained within the materials are non-public.**

The redacted information consists of the projected FY 2021 attributable cost, contribution, and cost coverage for each competitive product that is the subject of this docket. The Postal Service has filed information concerning the calculations used to develop the weighted average price increase by product and cost coverage. Protected

such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

² Section 3011.201(b)(2) further states the following:

(i) If the submitter has a proprietary interest in the information contained within the materials, identification of an individual designated by the submitter to accept actual notice of a motion related to the non-public materials or notice of the pendency of a subpoena or order requiring production of the materials.

(ii) If any person other than the submitter has a proprietary interest in the information contained within the materials, identification of each person who is known to have a proprietary interest in the information. If such an identification is sensitive or impracticable, an explanation shall be provided along with the identification of an individual designated by the submitter to provide notice to each affected person.

(iii) If both the submitter and any person other than the submitter have a proprietary interest in the information contained within the non-public materials, identification in accordance with both paragraphs (b)(2)(i) and (ii) of this section shall be provided. The submitter may designate the same individual to fulfill the requirements of paragraphs (b)(2)(i) and (ii) of this section.

information in the spreadsheets includes volume and revenue by price cell (weight increment and zone), as well as product-specific cost data and other supporting data. Such information for competitive product categories is commercially sensitive at the disaggregated, cell-specific level shown in the spreadsheets.

(4) Particular identification of the nature and extent of the harm alleged and the likelihood of each harm alleged to result from disclosure.

If competitors of the Postal Service were to have access to this information, they would likely focus their marketing and price cutting efforts on the Postal Service's most profitable products. This will lead to erosion of contribution of these products through lost sales and/or the need to lower prices to compete. Postal product cost and contribution information would provide suppliers of postal transportation and other services with information they could use to seek higher rates for services they provide. This would lead to higher postal costs and loss of contribution. Although the extent of the commercial harm is difficult to quantify, given that Shipping Services is a multi-billion dollar enterprise, even a small change in market share, prices, or costs could lead to millions of dollars in lost revenue, higher costs, and lower contribution margins. It is highly likely that if this information were made public, the Postal Service's competitors and suppliers would take advantage of it almost immediately.

Competitors could use the product-specific revenue, pieces, and weight information to analyze the Postal Service's possible market strengths and weaknesses and to focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Disclosure of this information would also undermine the Postal Service's position in negotiating favorable terms with potential customers, who would be able to

ascertain critical information about relevant product trends (*e.g.*, average revenue per piece, average weight per piece).

(5) At least one specific hypothetical, illustrative example of each alleged harm.

Identified harm: Competitors could use product cost, contribution, or cost coverage information to assess vulnerabilities and focus sales and marketing efforts to the Postal Service's detriment.

Hypothetical: Cost, contribution and/or cost coverage information is released to the public and available to a competitor. The competitor assesses the profitability of certain services based on the data released. The competitor then targets its advertising and sales efforts at actual or potential customers in market segments where the Postal Service has substantial contribution, thereby hindering the Postal Service's ability to maintain these customers.

Identified harm: Competitors could use disaggregated product volume, weight, and revenue distribution information to assess vulnerabilities and focus sales and marketing efforts to the Postal Service's detriment, and also during negotiations with the Postal Service.

Hypothetical: Disaggregated revenue, volume, and weights contained in the Nonpublic Annex are disclosed to the public. Another delivery service's employee monitors the filing of this information and passes it along to the firm's sales and marketing functions. The competitor assesses the profitability of certain services on a per-piece or per-pound basis or the Postal Service's relative concentration in certain service offerings. The competitor then targets its advertising and sales efforts at actual

or potential customers in market segments where the Postal Service appears to have made headway, hindering the Postal Service's ability to reach out effectively to these customers.

(6) The extent of the protection from public disclosure alleged to be necessary.

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the market for domestic parcel shipping products, as well as their consultants and attorneys. Additionally, suppliers of transportation or other services to the Postal Service that affect costs for competitive services should not have access to these materials; this restriction should include their consultants and attorneys.

(7) The length of time for which non-public treatment is alleged to be necessary with justification thereof.

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless otherwise provided by the Commission. 39 C.F.R. § 3011.401(a). However, because the Postal Service's relationships with third parties that may have a proprietary interest in protected materials often continue beyond ten years or decades, the Postal Service intends to oppose requests for disclosure of these materials pursuant to 39 C.F.R. § 3011.401(b-c).

(8) Any other relevant factors or reasons to support the application.

None.

Conclusion

For the reasons discussed in this application, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
